

URGENT: Your Case May Be Eligible For Immediate Dismissal! **Call 214-306-7799 for Your FREE Consultation (if Call in Next 5 Days)**

Dear «Defendant»,

According to the Dallas County Sheriff Jail Report, you've been accused of a crime, and it's your worst nightmare come true.

And for good reason.

If you're convicted, it can have devastating long-term consequences. It can ruin your reputation, career, relationships, and family, and even lead to jail.

I'm here with some good news that may surprise you.

Did you know there are legal strategies to possibly get your entire case dismissed before it even goes to trial?

That means your case would be thrown out with no further court fees, fines or punishment. Your long ordeal would *finally* be over.

Think having your case favorably resolved before it even goes to trial sounds too good to be true? Think again!

You see, most people are unaware of existing loopholes and other details of the law necessary to prove you guilty. And if certain crucial elements aren't met, it's impossible for the state to prosecute you, leading to case dismissal.

I only focus my practice on defending those in the Texas criminal justice system, **and I even wrote the book on the subject**, "*Exposing the Truth: Secrets of the Texas Criminal Justice System and Your Rights.*"

Warning: Other attorneys do NOT want you to know about legal loopholes that could get your case thrown out!

Why do other attorneys hope you never learn your case might be dismissed?

Greed, pure and simple!
