

No, It's Not Magic It's the New Brother PE770 Embroidery Machine

Stop Down to Stony Brook Sew & Vac and Try Out
the New Brother Embroidery Machine and you'll swear
it's magic... but it's not

It's here and it's so easy to use you'll think it's magic so stop down to Stony Brook Sew & Vac right now and see for yourself. The new PE770 is the latest computerized embroidery machine that is compatible with USB Memory Sticks!

With the PE770 you can almost magically import designs up to a maximum of 5" x 7" and utilize the Brother Memory Card Library for even more designs. You'll be able to embellish everything from home décor to T-shirts with one of 136 built-in embroidery patterns which include delicate scrollwork, intricate florals, classic quilt patterns and so much more.

Installing a bobbin in the Brother PE-770 Embroidery Machine isn't magic either but you simply drop in a full bobbin, thread in the direction of the arrow and you are ready to sew. Bobbin winding is easy - just wind the thread four or five times around the bobbin, pass it through the guide slot, and press the start button, and no, it's not magic.

I don't think Houdini was an embroiderer but if he was he would have even been amazed at high speed of 650 stitches per minute, and the crisp and precise embroidery.

He would have been equally amazed with the conveniently located Function Panel allowing you easy access to the Programmed Thread Trimming Button, Needle Up/Down Button and Start/Stop Button. It's located right in front of you the user.

With the Brother PE-770 Embroidery Machine you can position your design wherever you like. You can rotate your design, reflect it and increase the size of your design right on the Brother PE-770 Embroidery Machine's LCD Touch Screen... and when you need , the Brother PE-770 has On-Screen, Step-by-Step Instructions. You'll think it's magic.
