

Hi <insert first name only>:

I bet you're wondering why I'm sending you this little packet of real shredded money. As you know I'm a business owner just like yourself I wanted you to know about the best thing I've ever done to build my business

As you know the easiest customer to do business with you are your existing customers. What's been really exciting for me is finding that the best way to grow new business is with referrals and I've found a great way to do that. I'm part of a referral group and it's been nothing short of amazing!

In today's economy it's getting harder and harder to find new customers. The price of acquiring a new customer is 10-times MORE than repeat or referral business, and as small business owners we just don't have the time, money or resources to waste! I've found that since joining my referral-based marketing group I've dramatically reduced the amount of precious dollars I'm putting into finding new customers by myself and have seen just how easy it is getting customers to come to ME simply because of a recommendation from a trusted source.

What makes referral business so valuable?

1. Because they have been recommended to you by someone they trust referrals are more likely to become customers.
2. Customers who refer are more likely to stay with you and as a result, spend more, adding to their lifetime value.
3. Referrals who become clients are likely to give referrals because they understand the process.

Word-of-mouth advertising by way of referrals is SO MUCH easier than finding clients on your own and SO MUCH cheaper...

Stop wasting money and start MAKING money!

How is this done exactly?

I would love it if you could join me at a "Special Member Visitor Breakfast" with my referral group. I'm sure you'll love it. You'll see how we help each other generate a steady stream of prospects for our businesses using the proven referral system developed by BNI – Business Networkers International.

I know from personal experience you are top-notch – the only type of business we invite to BNI. Again, I think this is a great opportunity and I would hate for you to miss out on it.

YOU DO NOT WANT TO LEAVE YOUR BUSINESS CARDS AT HOME FOR THIS ONE! Be sure to bring at least 50-60 business cards to exchange with other guests and BNI members.

About their B-Town Business Builders Experience:

“My business partner joined BNI a year ago; I was hesitant due to the cost and joined the chamber instead. After a year I saw how valuable the relationships she had built in her BNI group were and how much work it had bought our business. So this year I joined BNI and have already paid for my membership in new business. We are busier than ever and have BNI to thank for it. Whenever people ask me how I find my clients I always say BNI!”

-Valerie Thompson, Highline Design Alliance, Serving South King County

“BNI is a means for independent business owners to form a round table where all attending are stewards to one another. The multicultural environment strengthens the bond formed between members that perpetuates a greater sense of community, and a feeling that there is always someone who has your back.”

-Allen Schnuelle, Economy Wiring, Burien, WA

“When I started BNI I was spending close to 15k a year purchasing leads over the internet. As of June 2012, I no longer spend ANY money for internet leads. Instead, I invest my company's time and resources building a local referral network through BNI. My only regret is that I did not become a member sooner!”
